

NEW AMBITION EDC FEATURES

REVIEW

By clicking on 'Review' in the top right-hand corner you will be taken to a new page that lets you navigate between participants and their visits.

Please note – this is only possible for visits that have already been started. To start a new visit, you will have to navigate through the dashboard in the usual way.

A screenshot of the 'Subject Review: Subjects' page. The page title is 'Subject Review: Subjects'. Below the title, there is a list of visits. The first visit is circled in red.

Subject ID	Number of Visits
1. 092-40990001-3	1 visits
2. 092-40990002-1	2 visits
3. 092-40990003-9	3 visits

Adverse Event

By clicking on AE you are taken to a page which lets you navigate between either AE Initial and Follow-up Reports or Death Reports. On these pages you can review the AEs as well as download PDFs of AE reports (including follow-up reports, if completed) and Death reports.

The screenshot shows the application's navigation bar with the following items: Specimens, Screening, Subjects, TMG, Review, and AE (circled in red). Below the navigation bar is a sidebar menu for 'Ambition Blantyre' with the following options: Screening, Subjects, Subject Review, Adverse events, TMG reports, Specimens, Action items, Data Management, Export data, Switch sites, and Log out. A dropdown menu for 'Adverse Events (AE)' is open, showing options: Home, AE Initial and Follow-up Reports (circled in red), Death Reports, AE Forms (Administration), and Death Forms (Administration).

Adverse Events: AE Initial and Follow-up Reports search

To find an initial adverse event report, search on the subject's study identifier or AE reference number.
To download the printable report, click on the PDF button left of the subject's identifier.
