Chief Investigator: Mr Toby Richards

Welcome to the next edition of the PREVENTT e-bulletin. We hope these will keep you better updated on progress of the trial and any other notices.

Site Set-up

Following approval for amendment 1, we have now started to set up centres. Most sites should now have received their SSI form and a copy of the CTSA for review. If you have any questions regarding any aspect of study set up, please contact the PREVENTT office. We are looking forward to working with you all over the next couple of months as we get recruitment started.

FAQ

This month instead of one FAQ we would like to encourage you to check out the new FAQ section on the website (<http://preventt.lshtm.ac.uk/faqs/>). This has been updated with all the questions from the investigator meeting and we hope they will be helpful as you start to set up PREVENTT in your centre.

POMS Training

As site set up progresses, we will also start to arrange training for all nurses who will be administering the POMS questionnaire. Initially, this will take place in London and as well as POMS training, there will be an opportunity to discuss the study further as recruitment begins. Dates will be circulated for these training days soon and individuals will be reimbursed for the costs of standard class travel.

Protocol

Copies of the protocol are available on request.

If you have any ideas or questions for future e-bulletins, please send them to preventt@lshtm.ac.uk.

Best wishes

Becky
