Podcasts, videos, promising practices, webinars, resources for trainers and a lot of materials for independent learning.
How is this preventing child sexual abuse?

We aim to:
- equip professionals with tools to support parents and children
- reinforce skills and competences for prevention and early detection
- combine forces to challenge societal attitudes

ULTIMATELY WE WANT TO create an interconnected network and system where children, parents, communities, professionals, academics and policy makers work together to prevent child abuse
We strive for a safe, nurturing and inclusive environment for all children.

Connect with us, become a member, share and learn to make this community of practice even stronger.
